332. Michael Mesches	Yes	1	Purchased Dec. 01, flashing started approx. Nov '02, didn't get to repair shop until 1 mo after warranty expired
331. Joshua Connor	Yes		I think these dislays should last longer than an average two years, I hope apple has the good sense to see this is a growing problem

310.	Mark Singer	Yes	1	
309.	Rob	Yes	1	Problem started 27 months after purchase. Apple should acknowledge that this is a design fault and repair under an extended warranty scheme.
308.	susmita mohanty	Yes	1	this thing failed after 28 months of use. Still either it should not fail at all, or should be repairable inexpensively
307.	siddharth das	Yes	1	this is nuts displays should not fail like this
306.	MARY HALLIGAN	No		My 3 yr old Apple 17" CRT is going out. The monitor fades in and out. Apple needs to take better care of its customers.
